Les Miserables

Date 07-00-2013 Starts 11:00 AM Ends 01:50 PM Duration 170 minutes

Synopsis Set against the backdrop of 19th-century France, Les Miserables tells an enthralling story of broken dreams and unrequited love, passion, sacrifice and redemption-a timeless testament to the survival of the human spirit. Jackman plays ex-prisoner Jean Valjean, hunted for decades by the ruthless policeman Javert (Crowe) after he breaks parole. When Valjean agrees to care for factory worker Fantine's (Hathaway) young daughter, Cosette, their lives change forever. In December 2012, the world's longestrunning musical brings its power to the big screen in Tom Hooper's sweeping and spectacular interpretation of Victor

Hugo's epic tale. -- (C) Universal

Web application layers

Client-side UI

Web application layers

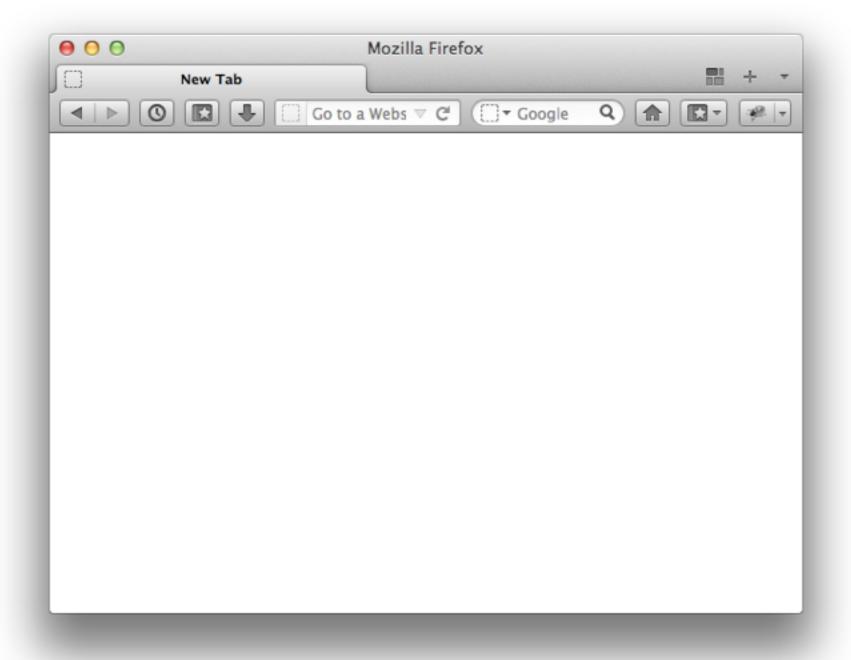

How does server-side UI work, really?

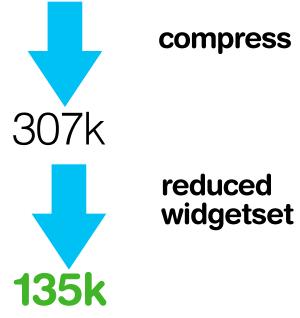

```
TextField name = new TextField("Name");
Button greetButton = new Button("Greet");
layout.addComponents(name, greetButton);
greetButton.addClickListener(
        e -> Notification.show("Hi " + name.getValue()));
```

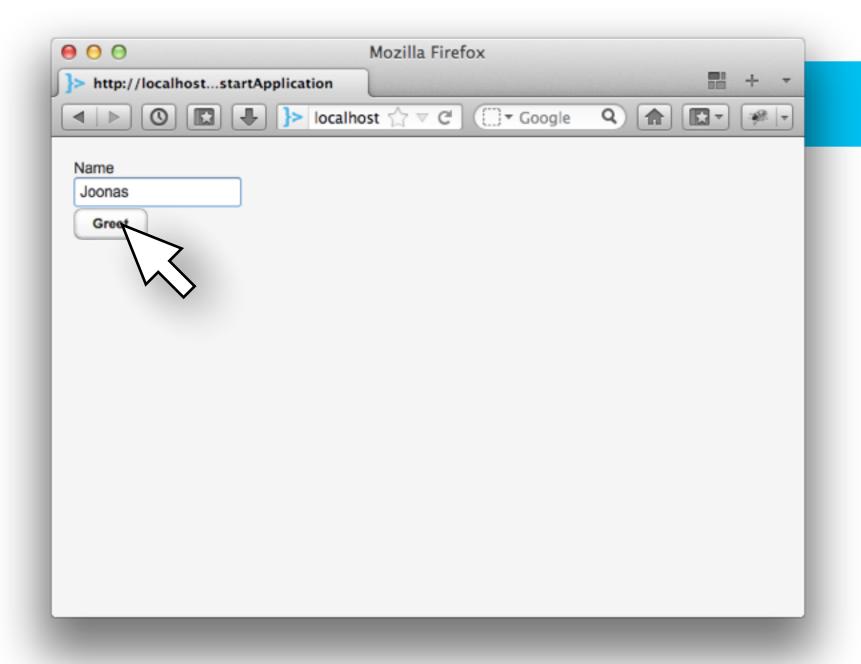

- Initial HTML
- CSS (theme)
- ImagesJavaScript
